**WILLIAM PATERSON UNIVERSITY
CLINICAL MENTAL HEALTH
SITE SUPERVISOR
PRACTICUM HANDBOOK**

Introduction

Welcome to the first field experience component for students in the Clinical Mental Health Counseling Concentration of the Professional Counseling Master's program at William Paterson University. This experience will be the counselor trainee's first opportunity to put his/her formal training into practice. This handbook is designed to provide information that will assist you in fulfilling the site supervisor requirements for the degree.

Definitions

Before beginning, there are several terms that need to be defined in order for you to have a clear understanding of the practicum experience.

Counselor Trainee – The counselor trainee is a student, under supervision, who has begun his/her Practicum experience and has been placed in a field setting

Practicum Placement Site – The site where the practicum experience takes place. The site must meet WPU training program standards and provide the counselor trainee with the opportunity to perform all activities, under supervision, that a regular staff member employed as a clinical mental health counselor would perform. Generally, practicum and internship are done at the same placement site, though the counselor trainee is encouraged to find more than one placement site in order to have a broad experience.

Practicum and Internship Coordinator- The coordinator is a designated University faculty member who is responsible for receiving practicum and internship applications. The coordinator will approve all practicum and internship placements before the course begins. The coordinator will also hold a practicum and internship orientation the semester before the placement begins.

Site Supervisor – The site supervisor is a designated professional staff member at the placement site who is directly responsible for the supervision of the counselor trainee. Site supervisors must be either a Licensed Professional Counselors (LPC), Licensed Clinical Social Workers (LCSW) or licensed psychologists (school psychologists are not appropriate supervisors). The site supervisor must also hold at least a Master's degree in counseling or a closely related field and have worked as a mental health counselor for at least two (2) years, with relevant training in clinical supervision. The duties of the site

supervisor are as follows:

1. Make provisions for orientation of the counselor trainee to the site, including procedures for assigning clients, emergency procedures, safety procedures, and any site-specific limits to confidentiality.
2. Provide space for the counselor trainee to perform his/her counseling responsibilities.
3. Make provisions for the counselor trainee to audio and/or video record clients with the client's written consent.
4. Work with the counselor trainee to develop practicum goals.
5. Maintain bi-weekly communication with University supervisor/Course instructor.
6. Maintain responsibility for counselor trainee's continuity on site.
7. Assist in the evaluation of the counselor trainee's performance relative to the objectives of the experience.
8. Provide regular supervision for the counselor trainee not to be less than one (1) hour of face to face supervision per week.

University Supervisor/Course Instructor – The university supervisor/course instructor is the instructor of the practicum course (CSP 6320) and provides the counselor trainee with bi-weekly triadic supervision. The duties of the university supervisor/course instructor are as follows:

1. Receive status of placement from counselor trainee prior to the start of the semester.
2. Provide group supervision of the counselor trainee.
3. Provide triadic supervision of the counselor trainee.
4. Monitor progress of counselor trainee during the practicum experience.
5. Maintain bi-weekly communication with site supervisors.
6. Make on-site visits when needed.
7. Initiate resolution of any problem occurring on-site.
8. Review counselor trainee's session recordings.
9. Secure evaluations.
10. Assign final grades.

Selecting and Acquiring a Placement Site

The counselor trainee must find his/her own placement sites. The Practicum and Internship Coordinator will help in any way, but the ultimate responsibility is the counselor trainee's. The counselor trainee may be able to use the practicum site for internship also, however this is contingent on the counselor trainee's workload and must be approved by the Practicum and Internship Coordinator. All sites must be approved by the University.

The counselor trainee is required to have experience in conducting both individual

and group counseling (with at least one hour of group over the total 700 fieldwork experience) and have one (1) hour of face to face site supervision per week. In addition, the counselor trainee **must** audio or video record counseling sessions. These requirements should be taken into consideration when selecting a practicum site.

The counselor trainee should contact the appropriate person at the possible placement site and discuss the requirements of the placement with this person. A qualified site supervisor should be identified at the time of this contact. The site supervisor and any other relevant administrators (clinical directors or an agencies Board of Directors) must sign the Practicum Application and Practicum contract before a site will be approved by the Practicum and Internship Coordinator (see appendix for application and contract). The Practicum and Internship Coordinator will be available to answer any questions the site supervisor or administrator might have.

Liability Insurance

The counselor trainee is required to purchase liability insurance through the American Counseling Association (ACA) while they are taking practicum. The counselor trainee needs to have his/her own policy, even if he/she is covered at the placement site. ACA offers low cost liability insurance for practicum students, however you must be a member of ACA to take advantage of these low rates. Applications for membership in ACA can be obtained from counseling faculty, from the ACA website at www.counseling.org, or by calling ACA at 1-800-347-6647.

Placement Hour Requirements

For the Practicum (CSP 6320) requirement, the counselor trainee must have a total of 100 clock hours. These hours include a minimum of 40 hours of direct service with clients, with a majority of those hours in individual counseling. The counselor trainee may also have group counseling hours to be included in the 40 hours of direct service. The remaining 60 hours of the placement includes: individual site supervision (at least 5 hours), group supervision, case write ups, peer consultation, and required paperwork as well as other experiences that familiarize the counselor trainee with the culture and procedures of their setting.

Recording Requirements

The counselor trainee in practicum is **required** to provide audio and/or video recordings of individual counseling sessions. These recordings will be reviewed and evaluated by the course instructor. The counselor trainee is required to provide at least two (2) recordings for the practicum (CSP 6320).

Consent for Recording forms must be signed by client and/or minor clients' parent or

guardian. Minor clients must also sign their assent. The client must be made aware that recordings will be listened to by the course instructor and may be reviewed in class for instruction purposes only. The client should be told that the recordings will be confidential and anonymous. They should also be informed that the recordings will be destroyed after they are reviewed. Some placement sites will have their own taping consent forms. The Consent for recording form is included in this handbook.

Counseling Procedures

The counselor trainee is required (as all counselors are) to make sure their client gives informed consent for counseling. Some sites will have their own Permission to Counsel Forms. A University form is included in this handbook. **It is required that the counselor trainee has a University permission form filled out and signed by each client and/or client's parent or guardian along with any forms your site may require.** Minor clients must also sign their assent. The counselor trainee must inform each client that he/she is a counselor trainee fulfilling a requirement for a Master's degree in counseling. The client must be informed that the counselor trainee is under supervision. When informing the client of confidentiality and the limits of confidentiality, the counselor trainee must inform the client that his/her case will be discussed with supervisors, who are under the same obligations of confidentiality as the counselor trainee.

Competencies

It is essential that the counselor trainee acquires certain competencies during the practicum experience. The following lists some of these competencies.

1. Counseling skills: The counselor trainee will
 - a. begin to develop skills necessary to obtain a psychosocial history.
 - b. demonstrate the ability to use interviewing skills such as observing and active listening.
 - c. begin to develop skills necessary to ascertain present mental status.
 - d. demonstrate the ability to make tentative impressions and recommendations based upon interview.

2. Evaluation skills: The counselor trainee will
 - a. begin to develop the skills necessary for conceptualization of client issues based on intake information and information obtained in counseling sessions.
 - b. begin to develop the skills and knowledge necessary to understand ramifications of DSM 5 diagnosis.

3. Treatment skills: The counselor trainee will
 - a. demonstrate the ability to provide appropriate counseling sessions.
 - b. begin to develop the skills necessary to implement treatment plans.

- c. demonstrate awareness of how client's cultural and/or ethnic background can impact case conceptualization, test interpretation, and diagnosis.
 - d. Demonstrates development of appropriate counseling strategies when working with clients with addiction and co- occurring disorders.
 - e. begin to develop the ability to work with other professionals in a joint treatment effort.
4. Knowledge of Agency Administration: The counselor trainee will
- a. begin to familiarize his/herself with the administrative and operative structure of the agency. begin to familiarize her/himself with the philosophy of the agency in regard to counseling.
 - b. begin to develop an understanding of and the ability to use agency resources such as records, psychological or psychiatric consultations, psychological or educational testing, and other information sources.
 - c. begin to familiarize him/herself with the goals, purpose and functioning of each agency department and how they may be utilized for the client's benefit.
 - d. begin to demonstrate the ability to keep appropriate records and case reports.
5. Professional Behavior: The counselor trainee will
- a. demonstrate knowledge of and adherence to the professional ethics and standards as outlined in the Standards and Practices and Ethical Codes of the American Counseling Association.
 - b. demonstrate knowledge of and adherence to the professional legal responsibilities in accordance with the standards of local, state and national government.
 - c. demonstrate knowledge of counselor preparation standards and state licensure and national certification requirements.
 - d. demonstrate knowledge of and adherence to the agency's professional standards and quality assurance policies, including policies on client-counselor relationship, record keeping, referral policies, and peer review process.

Grading Procedures

A good part of the grade in practicum (CSP 6320) is input from site supervisors. If the site supervisor has any concerns about the counselor trainee's progress, the course instructor will meet with the counselor trainee and the site supervisor to discuss these concerns and to determine the appropriate course of action.

Important!

Experience has shown that the more course work a student has completed, the better he or she will do in a field placement. It is therefore recommended that you have most, if not all your coursework completed before beginning practicum and internship. If this is not possible, you must have completed the course listed below before beginning your field placement.

Record the grade you have received in each of the following courses. If you have not completed a requirement, please indicate the semester in which you plan to do so. Full-time students must have completed a minimum of 24 credit hours before beginning Practicum. Part-time students must have completed a minimum of 36 hours before beginning Practicum.

A. Courses required for all students to have taken before or concurrently with Practicum:

____ CSP 6010

____ CSP 6030

____ CSP 6040

____ CSP 6050

____ CSP 6060

____ CSP 6080
